#### Kangaroo Island Touring

Early morning pick up by your local guide and your island nature experience begins with an introduction to Kangaroo Island. Tour through several island habitats and see wildlife in their natural environments. Kangaroo Island is a haven for Australian wildlife, which exists in its natural habitat without the threat of introduced predators. Listen to the distinct sounds of the native birdlife as they chorus from the tall eucalyptus trees.

Kangaroo Island is home to some 250 species of birds, many of which, through isolation from the mainland, have developed their own subspecies and are therefore unique to Kangaroo Island. As you travel the island keep an eye out for echidnas, wallabies, reptiles, and wildflowers.

At the spectacular Seal Bay Conservation Park, your guide will escort you on a memorable walk along the beach. This bay is home to a healthy Australian sea lion colony. Walk among the sea lions as they bask on the beach or among the sand dunes after their extensive fishing expedition.

With your guide you can stand at a safe distance to these wonderful, endangered creatures and hear them sigh and watch them at play. This is a truly unforgettable experience - one that you will treasure forever.

Enter our exclusive Heritage-listed natural bush property to enjoy a delicious gourmet picnic style lunch with Kangaroo Island wine. Follow your lunch with a pleasant bushwalk or a stroll along the beach. Travel through the island's interior keeping an eye out for koalas and echidnas. Explore the spectacular beaches and enjoy a bushwalk. Listen for Australia's rarest cockatoo, the Kangaroo Island glossy black cockatoo and watch out for the Tammar wallaby, with its small fine features, in its natural habitat.

Later in the afternoon, as the day draws to a close, see the kangaroos leave the safety of the bush to begin grazing on the open pastures. Your day concludes at your choice of accommodation for your overnight stay on Kangaroo Island.

### Kangaroo Island Touring

After a hearty breakfast, travel to the western end of the island and discover the Flinders Chase National Park, one of the oldest and most important national parks in South Australia. The park incorporates almost 20 per cent of the island and much of it is a Wilderness Protection Area which is home to a variety of fauna and flora unique to Kangaroo Island.

At Admirals Arch see where the powerful forces of nature have cut through the headland to create this natural geological formation. Watch some of the 10,000 healthy Long-nosed Fur Seals in their colony at Cape du Couedic and take a stroll around the historic Cape du Couedic Lighthouse and Weir's Cove.

Next, discover the picturesque formations of Remarkable Rocks. These large granite boulders balance dramatically on the cliff edge, which plunges 75 metres into the Southern Ocean.

Enjoy a delicious gourmet style picnic lunch with Kangaroo Island wine in a secluded scenic location. Enjoy the opportunity to search for kangaroos, wallabies, and a variety of birdlife. Koalas can be observed peacefully existing in their treetop habitat.

In the afternoon, explore some of the most spectacular beaches on Kangaroo Island and marvel at the stunning coastlines the island has to offer.

There will be many photo opportunities along the way for you to capture long lasting memories of your time on beautiful Kangaroo Island.
